PRESIDENT TAFT IS BACK IN WASHINGTON

266 Speeches and Traveled Over 13,000 Miles on His Recent Trip.

SHINGTON, Nov. 11.—After an ce of more than three months, which he made a 13,000 mile through the West and South, ent Taft slept last night in the House.

left the Capital August 6 last the cheers of the crowds ring- his ears. He returned last to the tune of the same cheers, tarried only a moment with arious welcoming parties. His ive point was the White House rs. Taft, and as quickly as he get away from the brief speech- welcome he climbed into his big obile. The chauffeur broke all records of the distance on the of the President's record-mak- urney.

hours before the President's was due the crowds began to union station.

en the train rolled in from Rich- on time at 8:35 o'clock, there an imposing throng of persons platform.

ong the throng were Secretary ster, Col. Crosby, military aide President, and Assistant Secre- of War Oliver. The district gov- nt was represented in the per- Commissioner West.

When President Taft spoke at the city auditorium in Richmond yesterday afternoon, he made his 266th speech of the long trip, which according to the itinerary consisted of 12,759 miles, but with side trips amounted to more than 13,000.

President Taft declared to members of his party last night that outside of an impatience to be with Mrs. Taft again, he would not mind if the trip should continue two or three weeks longer.

Mr. Taft's stay in Washington will be brief, as he leaves today for Middletown and Hartford, Conn., and in the meantime must deliver an address in Washington today before the Layman's Missionary Society. The President returns to Washington shortly before noon on Saturday and Monday morning will settle down to the routine work of his office. His message to Congress is so well defined in his mind and has been so well outlined in his speeches that it will require but a brief time in dictation.

President Taft said last night that he would not make any of the important diplomatic appointments that are pending until after January 1. He will not fill the vacancy on the supreme court bench until after Congress meets.

IN HONOR OF MISS STORK.

Two "Showers" in Honor Prior to Her Marriage.

ALACHUA, Nov. 11.—One of the most brilliant social events of the season was the handkerchief shower given by Mrs. James A. Williams at her pretty home on East Church street Friday afternoon complimentary to Miss Mamie Stork, who was to wed Mr. James Fletcher Morrison.

The house was tastefully decorated, pot plants, ferns, palms and white chrysanthemums being effectively arranged, green and white predominating.

Receiving with Mrs. Williams were Misses Lillie Morrison, Minnie Stork, Mrs. John Powell, and the bride-elect in a becoming gown of shepherd plaid silk made in Dame Fashions' latest style. As the guests arrived each was served to delicious punch by Mesdames Cloud and LeRoy.

While the honoree was sitting under a pretty wedding bell made of dainty white flowers, and just after Cupid (Master Claude McCallum) had finished using his bow and arrow he slowly pulled the ribbons attached to the bell, and down came a shower, yes, almost a storm of beautiful handkerchiefs with an appropriate message for the bride.

Mrs. Williams served an excellent salad course with coffee and saltines in her dining-room, which was a picture of loveliness, made so by the artistic decorations and the light of soft white candles arranged in the form of the letter "S" on a large mirror in the center of the dining table.

On the same table the bride's cake containing the lucky favors was arranged in pretty English style. The ring, the thimble, the coin and toothpicks were attached to ribbons and drawn by the young ladies present. Each guest was asked to write a prophecy to be fulfilled at the end of so many years, as they thought best. These prophecies were quite amusing when read aloud. Mrs. Godfrey won the prize for writing the best prophecy.

Tiny bags of rice were given as souvenirs.

The guests voted Mrs. Williams a charming hostess.

Another Shower at Haynesworth.

Haynesworth, Nov. 11.—The attractive country home of Mr. J. E. Haynesworth was the scene of a very happy occasion Wednesday afternoon, when Mrs. Lelia Pearce was at home to a number of guests invited to meet Miss Mamie Stork, who was to marry Mr. Fletcher Morrison. Everybody brought a dainty bit of linen and a good wish for the bride. These were packed in a miniature trunk decked with red hearts, and Master Richard Haynesworth came hauling it in to the bride, who sat beneath a bower of ferns and orange blossoms. Many were the exclamations and jests of good cheer, followed by a request from the hostess for each guest to draw a likeness of the bride on small cardboard hearts, on one side of which was already pasted a real photograph of her. The prize, a framed picture of the bride, fell to Mrs. John Powell—a dainty memento of a charming fete. Those present were Mrs. John Powell, Mrs. C. A. Stephens, Mrs. R. A. Turner, Mrs. Furman Smith, Mrs. H. N. LeRoy, Mrs. J. L. Cloud, Mrs. W. T. Rives, Mrs. S. J. Ellis, Mrs. H. J. McCallum, Mrs. F. B. Godfrey, Mrs. J. W. Collins, Mrs. W. H. Sealey, Mrs. J. A. Williams, Misses Annie Kirkland, Mamie Stork, Minnie Stork, Maggie Olmstead and Idella McKinney.

Starts Thanksgiving Day.

The big winter race meet for Jacksonville will be started at Moncrief Park, near Jacksonville, on Thanksgiving Day, November 25th. This big meet will last for a period of one hundred and ten days, and the best horses of Canada and America are to be there on this occasion. See the advertisement elsewhere.

NEW WINTER TRAINS GO ON NEXT SUNDAY

Popular Local Trains Will Be Discontinued During the Tourist Season.

The new winter train service over the Atlantic Coast Line will commence next Sunday, and it gives Gainesville the poorest local service it has ever received at the hands of the Coast Line officials.

Locally it is a hard knock to Gainesville, for trains have been taken off that were pulling business to the city, and the merchants are bound to see the effects of the change within a short while.

While there are four trains to come off, two new ones go on, but they run at midnight and early morning hours so will consequently prove of little service to the people throughout this section, and practically none of the people who visited here, for the new train will not stop at any of the country stations along the line.

The service discontinued is what is known generally as the Citra train, and up to this fall has been running from Citra to Gainesville, arriving at about 10:30 a. m. and bringing a large number of people during the week here to trade, but it was recently changed to run from Wilcox, and has been performing a good service for the people from both ends of the line. The most important trains, however, are Nos. 9 and 10, known as the Jacksonville-Ocala trains, and travel has been picking up at a good rate ever since the service was inaugurated. It is understood that the kick registered by citizens of Micanopy was the only one placed against the taking off of these trains, but they were successful in getting a special engine and coach which will run between that place and the junction for the purpose of connecting with the trains of the main line.

B. F. Hampton, secretary of the Board of Trade, was seen by The Sun man and he stated that he had long since learned that a "kick" or protest to a railroad company did no good whatever, and that the only action that would give any benefit was information furnished to the Railroad Commission, and he would likely take the matter up with them at once.

Gainesville has enjoyed a nice trade from the southern end of the county ever since the inauguration of the new service, but as the matter now stands we will be deprived of this increase of trade, unless some action is taken at once, for the new time card is effective on next Sunday, when the trains come off.

KENNARD'S NARROW ESCAPE.

Horse Was Killed and He Escaped With Slight Bruises.

T. Kennard, the liveryman of Archer, had a narrow escape from death one night recently while attempting to go from Archer to his home.

He became blocked on the roadway by a large number of trees having been felled, and he unhitched his horse from the buggy and attempted to ride him home. He had traveled only a short distance, however, when he and the animal both went into a natural well.

The result of the fall was almost instant death for the animal, but fortunately for the rider he escaped with only a few slight bruises.

JACOBIE—LEWIS.

Mr. O. M. Jacobie and Miss Eliza- Lewis were recently married in Tallahassee. Mr. Jacobie is well- known in Gainesville, having at one time been in the employ of the Baird Hardware Company, and if his bride is the lady by the same name that the editor has the pleasure of knowing in Tallahassee he has secured for a helpmete one of the most precious jewels of a town noted for its lovely women. The Sun wishes the newly wedded couple all the happiness imaginable.

Marriage at Alachua.

A very pleasant marriage ceremony was performed at Alachua on Wednesday, when Miss Mamie Stork, daughter of Capt. and Mrs. J. M. Powell, was quietly married to Mr. Jas. F. Morrison of High Springs.

Mr. Morrison is from Georgia and was for a long while engaged in the railroad business at Alachua, but was recently transferred to High Springs, while Miss Stork has been raised in Alachua. She is one of the accomplished young ladies of that place and has a large circle of friends who wish them much happiness in their new life.

A little want ad will accomplish big results.

LOSES VALUABLE DOG.

"Maude," Owned by J. A. Goodwin, Dies From Unknown Cause.

"Maude," the valuable pointer being to J. A. Goodwin, died Thursday morning and this familiar canine will now be sadly missed about the passenger station of the Coast Line.

Besides being a general favorite with all of the children and affording a great amount of amusement for the passengers while waiting for delayed trains, Maude was considered one of the best dogs in this section for field work, and her owner deeply feels the loss.

The dog had been ailing for the past few days and everything known was done for her, Mr. Goodwin calling in a number of dog experts, but she succumbed on Thursday. In view of her past services Mr. Goodwin had a coffin made and gave the dog a nice burial.

Sentenced to Three Months.

Lulu Trusby was brought here Thursday by Deputy Sheriff Wynne from Newberry under a sentence from Justice Carter of three months in the camps upon a charge of larceny.

NEW SCHEDULE EFFECTIVE.

Coast Line Will Place Trains 37 and 38 in Service.

The new train service of the Coast Line will become effective on next Sunday, when trains Nos. 37 and 38 will be placed in service.

Train No. 37 will arrive from Jacksonville at 12:30 a. m. daily and No. 38 from St. Petersburg at 3:58 a. m., while the day trains, Nos. 39 and 40, will arrive from the north at 12:39 p. m. and from the south at 3:30 p. m.

There is no change in the day trains, and the night trains are run about the same as the night trains last year.

The Atlantic.

The Atlantic Hotel of Jacksonville has a card in this issue of The Sun. This was formerly the Acme, but has recently changed hands and the new management have spared neither expense or pains to remodel the entire place, making it come up to the modern hotels, and at medium price for the people. It is most conveniently located and parties stopping there will again have the pleasure of meeting with their old friend, Col. V. J. Shipman, who is still at the desk.

Savannah Welcomes The Royal Arch Masons

SAVANNAH, Ga., Nov. 11.—With impressive ceremonies and addresses of welcome and response that were evidence of good fellowship the general grand chapter of Royal Arch Masons of the United States was welcomed to the State and city by the Georgia grand chapter yesterday, and the one hundred thirty-fourth triennial convocation here. After the reception of the general grand officers by the grand chapter officers, Gen. P. W. Meldrim of Savannah, representing Governor Joseph M. Brown of Georgia, uttered the State's welcome. Hon. H. Estill Wilson, representing Mayor George W. Tiedeman of Savannah, also made a welcome. Other addresses and responses were made by General Grand High Priest Nathan G. Kingsley, Rester G. Brown, general grand master of the third veil; Henry G. Banks, Georgia grand master; William F. Kuhn of St. Joseph, Mo., general grand captain, and J. W. Walton, Georgia grand high priest.

The general grand chapter went into executive session. Rev. Dr. Charles H. Strong of Savannah, well-known Episcopal minister, was made chaplain. Mr. Thomas Robbins was made sentinel.

Savannah women were hostesses for the women visitors with the Masons, on a trolley ride that was concluded with a luncheon at Thunderbolt.

Last night the South Carolina grand chapter was host at a reception and ball at the Guards' armory. Wild palmettoes and yellow chrysanthemums were used in the elaborate decorations.

Bold Bandit Compels Farmer To Sign Check

KEWANEE, Ill., Nov. 11.—A masked bandit armed with two revolvers and a bowie knife yesterday held up and terrorized in their home John Powers, a farmer, living near here, his wife, son, daughter and two hired men. After intimidating them under threat of death from 6 o'clock in the morning until 2 o'clock in the afternoon, the robber tied the three men with ropes, forced the woman and girl into the kitchen, where he securely locked them and then compelled Fred Powers, the son, to drive him to Tiskilwa, Ill., to cash a check for $350, which he had made the farmer sign.

The farmer, after a struggle, succeeded in freeing himself from the bonds in which he had been strapped by the bandit and communicated by telephone with neighbors, who hastened to stop payment on the check. The bandit arrived at Tiskilwa at about the same time as the message from Powers' friends reached the bank.

When he was refused the money the robber forced the farmer's son to drive him away and when pursued by farmers, some of them in automobiles, drove into a marshy country and then fled on foot through the woods, where all trace of him was lost.

LITTLE COTTON IS LEFT AT ALACHUA

ABOUT THREE HUNDRED BALES BEING HELD FOR 30 CENTS.

Parties Amply Able to Hold Indefinitely and May Even Get Better Prices.

There is now only about three hundred bales of cotton left in the Alachua section, so the reporter was informed by C. A. Williams, one of the best posted cotton men in the county, on Thursday.

He stated to The Sun man that the parties interested in this amount are amply able to hold their cotton and that unless they received the price they had asked of thirty cents they would continue to hold and it is well known that this cotton is among the very best that has been gathered in that section during the entire season.

Mr. Williams said that the gins were still running and would average about one day of each week, but he could scarcely tell where even this small amount was coming from, for it looked as if the fields had long since been cleaned of every bowl, and he knew that all of the larger plantations were now being used as pastures.

Outside of the holdings of Messrs. Stevens, Haynesworth, McFadden and Ellis there is practically no cotton to be had and no inquiries are being received for the staple.

The local price there, however, is good, remaining firm at 27 cents, and occasionally a bale or so is found at this figure.

Easy Money.

How the street urchin spots an "easy mark" and gets the coin was shown recently at Third and Chestnut streets. An excellently dressed young man with a setter dog which he held by a strap was standing on the corner.

One of the newsboys stood beside the dog and when its master was not looking reached down and gave its tail a sharp pull. With a yelp of pain the dog turned quickly and jumped for its tormentor, but missed him by several inches.

The fact that the dog did not bite him was no obstacle to the boy, who grabbed his left arm with his right hand and began to scream furiously. "It bit me; it bit me. Take me to a hospital."

The owner of the dog became alarmed and ran to the boy. "Here, son," he said, "take this five dollar bill and keep quiet. It'll be all right," and he hurried away.

"Easy money," said the newsboy as he joined his companions.—Philadelphia Times.

Bloodshed Averted.

Opie Read, the novelist, once told of his experiences as a journalist in Kentucky many years ago.

"There was a good deal of news," he said, "such as shootings and knifings, but this news was not regarded as important, and little attention was paid to it. I remember once, when a local feud broke out afresh, when members of the opposing sides met at the county seat. There were hot words, a blow was struck, and weapons were drawn, when the sheriff interfered. He loudly announced that he would not tolerate any violence, ordered the parties to separate, and when his orders were not obeyed he began shooting. I forget whether he killed eight or nine, but I know that in describing the incident in my paper I commended the sheriff for his prompt action and bravery and added the paragraph, 'There is no doubt but for the prompt action of the sheriff there would have been bloodshed.'"

Brains For Diet.

There is a latent truth in the primitive Maori belief that by eating the brains of his enemies a warrior acquired their skill and cunning.

It was a custom among these savages, whose descendants I have seen and admired in Hawaii and New Zealand, to hold a brain feast after a successful battle. The conquering chief always reserved for his own portion the gray matter of the opposing leader. Observe how the practice works out in modern life. We do not actually eat our rivals' brains, but if we are wise we will try to absorb what those brains contain. The man who makes a big success is the man who makes the best use of his enemies, studies their moves, learns their method, knows what thought processes they are apt to follow. Down here in the street I guess we're more or less akin to the Maoris, anyway.—New York Herald.

Boomerang Kinks.

There are a good many "kinks" to be learned to throw the boomerang skillfully. One is always to throw against the wind if you want it to come back to you. It is a minature aeroplane, for it literally sails against the wind and is borne upward and onward by the breeze. If the player wants to make a long distance straightaway record he can throw with the wind, but he must take care to select a boomerang which is heavy—so heavy that it will not be too much affected by the air currents. By pointing the boomerang at a certain angle he can make it soar aloft in circles like a hawk until it may be as high as 100 feet above the earth. As in golf playing, it is not so much mere strength that makes a long thrower, but the skill in aiming, the direction and in boomerang throwing the way in which advantage may be taken of the air currents.—St. Nicholas.

Revised Upward.

One evening at family prayers the head of the house read that chapter which concludes with, "And the wife see that she reverence her husband." After the exercises had closed and the children had gone to bed, the New York Post says, he quoted it, looking meaningly at his wife.

"Let us see what the Revised Version says on that subject," said she. "I will follow the new teaching, if you please."

The Revised Version was produced, and her chagrin may be imagined as the head impressively read, "And let the wife see that she fear her husband."

She Meant Professionally.

As the young man caressed the cheek of his ladylove she drew away hastily.

"I think," she said indignantly, "you had better see father first."

"Why, what do you mean?" asked the perplexed lover.

"Father," she replied as she nursed her cheek, "is a barber."—Success Magazine.

Helped Them Along.

"Have you given proper attention to your children's teeth?" asked the health department circular.

"I've always provided plenty of good food for 'em to chew on," the fond parent inscribed on the bottom of the paper and mailed it back.—Philadelphia Ledger.

Chinese Laws.

In lemon colored silk a Chinese diplomat talked about Chinese laws.

"Some of our laws, you know, are very stimulating," he said. "For example, Chi owed money to a money lender. Chi would not pay, and the money lender hanged himself on Chi's doorpost. Chi was condemned to death. You see, he was really responsible for the money lender's death.

"A son able to support his parents is imprisoned for life if he won't do so. A son unable to support them is imprisoned for three years, as we hold—and quite rightly—that there must be something wrong with a young man who can't support his parents.

"Our police are excellent, thanks to the stimulus of our law. When a crime is committed a sleuth is put upon the case and given, say, thirty days to land the criminal. If the sleuth fails he himself pays the penalty of the crime, less two degrees. That, too, is a just and stimulating law, for if the police can neither prevent nor punish crime then they should be themselves punished for their rank incapacity."—New York Press.

Superstitious Remedies.

For whooping cough a cooked dormouse is good. In the eighteenth century this remedy was employed in Scotland. Here is another medicament for the same complaint: "Watercress is a very good thing, sir, with a little bit of that brown sugar what you uses to put on to bacon and some honey mixed with it. And I'll tell you what's a good thing for croup but a riesty bacon fat fried down and afore it resolves add some pepper and vinegar. It opens the pipes of the lungs, d'ye see." And if you are adventurous you may try this for "phlegm on to the chest:" Catch a "dear little dotty frog" and tie a bit of string to one of its back legs. Then you "keep on letting it go down your throat and pulling it up again." The narrator of this added to T. W. Thompson, who sets down these stories: "It's the truth, young fellow, and it cleared the phlegm out of his throat bootiful, but we wouldn't do such a thing as that."—London Chronicle.

The Swine or the Flower?

Oh me! I saw a huge and loathsome sty,
Wherein a drove of wallowing swine were barred,
Whose banquet shocked the nostril and the eye;
Then spoke a voice, "Behold the source of LARD!"

I fled, and saw a field that seemed at first
One glistening mass of roses pure and white,
With dewy buds 'mid dark green foliage nursed;
And as I lingered o'er the lovely sight,
The summer breeze that cooled that Southern scene,
Whispered, "Behold the source of COTTOLENE!"

"Nature's Gift from the Sunny South"

COTTOLENE is a pure and wholesome frying and shortening medium, made from refined cottonseed oil. There is not an ounce of hog fat in it to make food unwholesome, greasy and indigestible.

As evidence of its superiority, COTTOLENE received Grand Prize (highest possible award) at the Louisiana Purchase Exposition; and Gold Medals (also representing highest awards in each case) at the Charleston Exposition, the Paris Exposition, and the Chicago World's Fair. In fact, in every case where COTTOLENE has been exhibited in competition with other cooking fats, it has invariably been granted the highest award.

RETURN OF POPULAR COMPANY.

Manhattan Theatre Company Entertain Large Audience at Baird.

At the Baird Theatre last night a large house greeted the return of the Manhattan Theatre Company when they presented the pleasing little comedy-drama of "Hearts of Tennessee."

This is a beautiful piece dealing entirely with Southern life and the true manner in which the hearts of the South are linked, and in the four acts the full merit of the piece is brought out by the capable cast that this company carry.

The specialties are a leading feature and the good work put forth by these artists again insures them a much larger house for this evening, when they will present "The Girl and the Gambler."

"The Servant In the House."

One of the potent appeals of "The Servant In the House," which will be seen here on next Thursday night, November 18, is its remarkable realism. Audiences lose themselves in the unfolding of the beautiful story and awake to the realities of life at the end of the play with a sigh of regret. Commenting on this fact, Harper's Weekly says: "Here is a drama so great, so compelling, so reverent, so akin to all the beautiful and permanent things of life, that it is more than a play, more than a novel, more than a mere book. It is a page from life itself, revealing the brotherhood of man as a real breathing thing; showing how the impossible has become possible. According to the critics: 'Not in a lifetime has such a wonderful play been created.'"

No Change in Condition.

There has been practically no change in the condition of J. W. Bennett since he underwent the operation at the hospital. Following the operation he was reported somewhat better, but for the past two days his condition has remained about the same and friends hope his strong constitution will enable him to survive this shock.

The Value of His Time

Young physicians in the smaller towns have an idea that appearing very busy will help them greatly in starting a practice. The following was told by an ex-senator, Dr. Godfrey Hunter of Kentucky. Dr. Hunter had a call the afternoon following the hanging out of his "shingle" and started through town in his buggy at terrific speed. A policeman stopped the enterprising physician.

"Doctor," he said, "it is against the city ordinance to drive at the speed you are going. You must accompany me to the judge and pay your fine."

"What is the fine?" inquired the doctor.

"Five dollars."

The doctor's hand flew to his pocket. "Here's $10. I have to come back just as fast as I am going."—Success Magazine.

Fixed Stars.

There are no fixed stars. When we look up at the stars they appear to be very still and peaceful, but astronomers know that such is not the case, but that each one is moving, some with incredible speed, invisible to the unaided eye, yet visible to the instruments at their disposal. Our sun, for instance, which is nothing more or less than one of the "stars" supposed to be "fixed," is moving along, with the entire solar system, toward a point in the constellation Hercules. In nature, from the most insignificant germ to the largest world, everything is in perpetual motion.

The Maid's Chance.

"Do you ever lose that umbrella of yours?" asked the maiden.

"No; I don't," replied the man sternly. "The person who takes that umbrella will have to take me."

"Do I understand that to be a proposal of marriage or a threat?" inquired the miss sweetly.—Philadelphia Inquirer.

The Women Question.

Little Willie—Say, paw, what is the "women question?" Pa—It's numerous, my son. *For example:* What shall I wear? How does my hair look in the back? Is my hat on straight? etc.—Exchange.

Up and Down.

Algernon Ardupp—Can't you make me any better rate for room and board than what you advertise—$5 up? Mrs. Hamond—Yes. In your case it will be $5 down.—Chicago Union.

Knowledge is proud that he has earned so much. Wisdom is humble that he knows no more.—Cowper.

Finger Prints Never Fail.

Although scars from wounds and ulcers frequently partly destroy the pattern folds, such disfigurements are more often than otherwise aids to identification. When the system of finger prints was first introduced at police headquarters in New York a lieutenant in one of the administrative departments tried to discredit it. He had an experimental print made of the tip of a finger and a short time afterward asked to have the same finger reprinted. He had meantime ground down the skin of this finger on a grindstone until the pineal almost bowed. Nevertheless the pattern formed was more accurately disclosed in the second printing than in the first. Once the record has been made nothing has yet been discovered to invalidate it.—Charles Brewer in Century.

SUFFERING ENDED.

J. W. McCollum & Co. Sell the Remedy That Cured Stomach Trouble of 14 Years.

And best of all they guarantee it to cure you or money back. Read this:

"I have been a great sufferer for 14 years; everything I ate gave me heartburns. I have never been able to get anything that would give me any relief until a friend of mine insisted on my taking Mi-o-na. I took a 50-cent box and I believe I am entirely well."—F. M. Bryant, Newnan, Ga., June 5th.

Mi-o-na is not a nostrum; it is the prescription of a celebrated physician who is a specialist in stomach diseases.

One clever woman calls Mi-o-na the Sunshine Prescription because it changed her from a miserable, nervous dyspeptic into a bright healthy, happy woman in a few weeks.

These little Mi-o-na tablets are surely wonder workers. They absolutely cure indigestion whether acute or chronic.

They stop belching, gas in stomach, and heaviness, in a few minutes. Distress after eating vanishes as if by magic when one or two little Mi-o-na tablets are swallowed.

Only 50 cents a box at leading druggists everywhere, and in Gainesville by J. W. McCollum & Co. Test sample free from Booth's Mi-o-na, Buffalo, N. Y.

If Senator Aldrich finds there really is an "enemy's country" he can thank himself for making it.

Disposition of swollen fortunes after the manner of the late John S. Kennedy would greatly soften public animosity to their existence.

Brooklyn now furnishes the mayor of New York. Certainly such a thing was not contemplated when New York "annexed" the City of Churches.

It is said that Rockefeller's million dollar hook worm fund will be spent mostly for Epsom salts. A million dollars worth of salts ought to start something, remarks The Tampa Tribune.

Among the seventeen candidates who have already announced their willingness to become mayor of Boston is a peddler of small wares. He ought to make a good house-to-house canvass.

The casualties from the careless use of firearms since the hunting season opened in the different States have been enormous. Scores of lives have already been sacrificed, and many a family now mourns the death of some dear one. You cannot be too careful with your gun while engaged in the pastime of hunting.

We hope it may prove true, the "charge" that much of the good roads agitation nowadays is due to the automobile manufacturers, who are actuated by no higher motives than the selfish desire to sell automobiles. If the automobile makers are spending any considerable effort or money in good roads publicity it is a fine thing, no matter whether their motive be interest or philanthropy.

The Tampa Tribune, whose editor is a staunch political and personal friend of Congressman Frank Clark, in a leading editorial advises that gentleman to "calm" himself, and cease paying so much attention to his critics. The advice of The Tribune is timely, and The Sun hopes that Mr. Clark will let his controversy with The Miami Metropolis, aided and abetted by the Republican correspondent of The Chicago News-Record, die a natural death.

The money which Governor Gilchrist is to distribute to soldiers of the Spanish-American war will go only to those who were in Colonel Lovell's regiment, the First Florida, and only to those whose names have been furnished by the U. S. Government. Less than half the amount found to be due has yet been received by Governor Gilchrist. The smallest amount to be paid to any man is thirty-two cents, the largest amount $23.36. The average amount due enlisted men is about five dollars. The distribution will be made as soon as all the money is received. There will necessarily be considerable delay, but the Governor will dispose of the matter as soon as possible.

IMPROVING BY JERKS.

When President Taft, at Corpus Christi, characterized the course of inland waterway improvement in the United States as "a procession of jerks," he epitomized not only the interminable and costly delays attendant on the work, but the strange indifference of the congresses from the beginning of improvement, in 1823, down to the present day. It was a homely expression, but it was terse and comprehensive. Equally true was his statement that the value of the inland waterways was increased with the completion of each improvement. The policy of improvement by jerks was the certain begetter of the pork barrel. Under that policy no attention was paid to the fact that the inland waterways from a chain of highways, with the improvement of one emphasizing the value of all, but with no possibility of the complete improvement even of one of the great natural highways when appropriations were made more for the enhancement of Congressional re-elections than for the advancement of trade and commerce through relief from freight congestions that come oftener and grow more costly with the growth of the country.

There has been no part of the Presidential itinerary attracting more serious attention than his trip down the Mississippi river. There was nothing of politics in the river trip. But there were emphatic recognitions of the necessity for inland waterway improvement on definite plans to be undertaken on the recommendation of the engineer corps of the army upon the merits of the streams, upon their tonnage bearing capacity when improved, with appropriations sufficient for the work, and with the Federal Government pledged to completion of work undertaken.

The river itinerary was an object lesson. The entire country is convinced that the vital importance of the work has at last been recognized and placed upon a plane of recognition by the Government from which it cannot be displaced. It was an object lesson of the hitherto forgetfulness and indifference on the part of the general Government. It was a magnificent recognition of the inland waterway as the certain and the cheapest possible means of communication between shipper and receiver, and as a regulator of freight rates absolutely just and equitable in its operations, enforcing its judgments through the inexorable operation of the law of supply and demand.

The policy of improvement of the inland waterways of the United States has taken the place of the policy of the particular project under which no results of good were had, but only inevitable and costly delays. The new idea of "A Policy! not a Project," the platform of the National Rivers and Harbors Congress, is responsible for the awakening of official and citizen to the necessity for sufficient appropriations and for continuous work, with the emphatic expression of President Taft supplementing that platform and bringing the whole country face to face with the practical solution of the great problem of transportation. It is a solution from which the country will not avert its face, but which it demands shall become the fixed and settled policy of the Federal Government. The coming meeting of the National Rivers and Harbors Congress, unquestionably the most important of the series, and representative of the trade and commercial interests of the entire country, will present the question to the Federal Congress in concrete form, expressive of a demand for a policy which can only enure to the benefit of each and every section of the country.

END OF SEABOARD RECEIVERSHIP

Few events in the railway progress of the Southern States are of more interest to that section than the ending of the Seaboard Air Line receivership, says The Wall Street Journal. A system of approximately 3,000 miles in length, including recent additions in the Southeast, thus passes out of the tutelage of the courts into the control of the stockholders, representing capital liabilities of little short of $147,000,000.

The Seaboard receivers took charge of the property when it was in need of rehabilitation and when the old management, under the unfavorable conditions of 1907, had apparently lost its grip. By the creation of a debt of $7,510,000 in receivers' certificates the necessary funds were procured to improve freight receiving facilities, to complete connections and traffic arrangements and in various ways to do what was deemed necessary to increase the earning power of the company.

From all that can be learned at this writing the stewardship of the receivers has been one that reflects credit on them. Receiverships at best are necessary evils. This one came into existence as a preventive of disintegration and for the purpose of giving the property a period of convalescence exempt from the importunities of creditors. But the Seaboard receivers have done more than this. They have rendered constructive services to a property which has always been regarded as having possibilities for investors with the growth of the territory through which it runs. Among such services has been the reduction in the percentage of operating expenses to revenue from 76.36 per cent in 1908 to 69.57 per cent in 1909 without materially impairing the maintenance of equipment, in the same time increasing by 9.9 per cent the outlay on maintenance of way and structures and adding 35.1 per cent to net operating revenue.

From the operating viewpoint, much has been done to knit together the various parts of the Seaboard mileage. In connecting with the new Clinchfield line the road gains 2,600,000 tons of coal freight a year. The old wrangles between the Ryan and the Williams factions seem to have spent their force out of office, and it is to be hoped that in the selection of a new president someone may be found who can build on the basis which the outgoing receivers have laid to make the Seaboard one of the standard railway properties in Southern territory.

NEWS FROM ALL PARTS OF FLORIDA

Refreshing showers swept over St. Augustine and St. Johns county Sunday night.

The dry weather is cutting the vegetable and orange crop very much in the section around Welaka.

A number of the progressive citizens of Welaka and vicinity held a meeting recently to organize the Welaka Board of Trade.

The Melrose Camp, W. O. W., is going to make considerable improvements in its hall. Work will commence almost at once.

A new city hospital is to be erected in Tampa. The contract has been awarded to Messrs. Teasley & Riden, well-known firm in that city.

A. K. Stanford, a well-known Minneola resident, died Tuesday after a brief but painful illness. He succumbed to a serious attack of heart trouble.

The Levy Times-Democrat of Bronson started on its twenty-ninth year with a recent issue. For twenty years it has been under its present management.

James M. L. Liddon, the sixteen-year-old son of Judge B. S. Liddon, a former member of the State supreme court, died Saturday morning in Marianna, after an illness of almost a year.

A splendid educational rally was held at Silver Palm and Dania on Monday. A Ladies' School Improvement Association was organized and good work is looked forward to from both places.

On Tuesday afternoon at the Y. M. C. A. gymnasium in Jacksonville the eight freshmen had relay races instead of basketball games. In the relay races on the track the Choctaws lost to the Creeks.

The San Juan Garage Company, in Orlando, has just put into commission a very convenient appliance in the shape of a hydraulic elevator of two tons lifting capacity. It will easily hoist any auto from the ground floor to the repair shop upstairs.

A party of postal employes, sixty-three in number, have arrived in Jacksonville from New York. They are on a pleasure trip, which is an annual event, when they visit different sections of the country. They will be in Jacksonville two days and from there will go to St. Augustine.

The executive committee of the Ponce de Leon celebration met in St. Augustine Monday night and formally announced the 400th anniversary celebration of the Landing of Ponce de Leon, which will be given in that city in the year 1913, with an elaborate celebration.

There are said to be more than four hundred people now living at Omega, the new town founded by the St. Johns Development Company in St. Johns county. About two thousand families have bought tracts about the town. This is another step toward the settling of Florida.

The Sanford Traction Company is using every effort to secure the gasoline motor car necessary to begin passenger service over its track in Sanford, and over the tracks of the Sanford and Everglades railroad through the heart of the richest celery growing district in the world.

Another very valuable tract of land in St. Johns county is to be colonized and developed. It is the Stachlin homestead, a part of the Bulow grant. This land fronts on the East Coast Line canal and Bulow creek, and is said to be one of the most fertile pieces of land on the East Coast.

NEEDFUL KNOWLEDGE

Gainesville People Should Learn to Detect the Approach of Kidney Disease.

The symptoms of kidney trouble are so unmistakable that they leave no ground for doubt. Sick kidneys excrete a thick, cloudy, offensive urine, full of sediment, irregular of passage or attended by a sensation of scalding. The back aches constantly, headaches and dizzy spells may occur and the victim is often weighed down by a feeling of languor and fatigue. Neglect these warnings and there is danger of dropsy, Bright's Disease, or diabetes. Any one of these symptoms is warning enough to begin treating the kidneys at once. Delay often proves fatal.

You can use no better remedy than Doan's Kidney Pills. Here's Gainesville proof:

Mrs. James Doig, 902 Alachua avenue, Gainesville, Fla., says: "It is now some time since I used Doan's Kidney Pills and I am glad to say that I have had no need of a kidney remedy. Several years ago Doan's Kidney Pills drove away a severe attack of kidney trouble and time has proven the cure to be a permanent one. I take pleasure in recommending Doan's Kidney Pills to other kidney sufferers."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

HAIR HEALTH

If You Have Scalp or Hair Trouble, Take Advantage of This Offer.

We could not afford to so strongly endorse Rexall "93" Hair Tonic and continue to sell it as we do, if we were not certain that it would do all we claim it will. Should our enthusiasm carry us away, and Rexall "93" Hair Tonic not give entire satisfaction to the users, they would lose faith in us and our statements, and in consequence our business prestige would suffer.

Therefore, when we assure you that if your hair is beginning to unnaturally fall out or if you have any scalp trouble, Rexall "93" Hair Tonic will promptly eradicate dandruff, stimulate hair growth and prevent premature baldness, you may rest assured that we know what we are talking about.

Out of one hundred test cases Rexall "93" Hair Tonic gave entire satisfaction in ninety-three cases. It has been proved that it will grow hair even on bald heads, when, of course, the baldness had not existed for so long a time that the follicles, which are the roots of the hair, had not become absolutely lifeless.

Rexall "93" Hair Tonic is vastly different from other similar preparations. We believe that it will do more than any other human agency toward restoring hair growth and hair health. It is not greasy and will not gum the scalp or hair or cause permanent stain. It is as pleasant to use as pure cold water.

Our faith in Rexall "93" Hair Tonic is so strong that we ask you to try it on our positive guarantee that your money will be cheerfully refunded without question or quibble if it does not do as we claim. Certainly we can offer no stronger argument. It comes in two sizes, prices 50 cents and $1.00. Remember you can obtain it only at our store—The Rexall Store. J. W. McCollum & Co., corner East Main and Union streets.

A Tiny Baby

GROW WINTER OATS.

The common fault in the South is too late sowing of oats, so that they are neither winter nor spring. The best success is usually had from early September sowing, or October in the far South. The soil should have the same careful preparation and fining and compacting of the surface that wheat demands, for if oats are sown in very freshly prepared and loose soil they will winter-kill worse than if the soil had been well compacted by harrowing and tramping before sowing. Any of the wheat drills will sow oats if they are made very clean, but if not, they will choke with short straw, etc. Never sow less than two bushels per acre, and if sowing in spring sow two and a half bushels per acre. If sown in early fall the plants will tiller out and thicken, but they will do little of this in spring.

There is no reason why a good crop of winter oats should not be grown anywhere from central Virginia south if the land is put in the best condition. If sown after a corn crop I would, after cutting and shocking the corn, merely disk the land about three inches deep, but would go over and over it with a drag harrow after the disk till perfectly fine. If treated in this way and tramped and harrowed till the surface is fine there will be little winter killing if the seed are sown with a hoe drill that will put them in about three inches and leave furrows to feed in to them.

Sow clean seed. If you find cheat in the crop in the spring, it will be because you sow cheat seed in the fall. The cheat seed looks like a shrivelled oat, and with a good fan they can be blown out, as they are lighter than oats. But set it down as a fact that if you sow clean oats and there is no cheat seed in your soil, you will never have any cheat in the crop, for no cheat ever grew from an oat seed but always from its own seed and no other. Hence the importance of getting perfetly clean seed.

Where a man farms right with a good rotation of corn, oats and cotton, with crimson clover and peas thrown in as every chance, there is no reason why any farmer in the South should not get his land up to the making of 60 to 75 bushels of oats per acre, and find them a very profitable crop.—W. F. Massey, in Raleigh (N. C.) Progressive Farmer.

A Broken Back.

That pain in your back caused by lumbago, stiff muscles or a strain, is an easy thing to get rid of. Fresh Air For Sleeping.

A person requires twenty cubic inches of fresh air at each respiration, or on an average of 400 per minute, and in ten hours' sleep he consumes 130 cubic feet of air. The air of a bedroom ten feet square, having its doors and windows closed and occupied by one person, would become unfit for respiration in four hours. In the case of two occupants the time would, of course, be reduced to two hours.—New York American.

GAINESVILLE,

—THE—

University City.

Gainesville is conceded to be the most enterprising as well as the most beautiful city in the interior of Florida. It is located in the very center of the State, half way between the Atlantic and Gulf Coasts, surrounded by lands of such fertility as to be capable of producing a great variety of crops; in the heart of the truck-growing, phosphate and naval stores belt. She has the best educational advantages in the State, good churches, with edifices which are superior to any town of its size in Florida, with large and consistent congregations; has a climate which cannot be excelled for health and pleasure. All these natural advantages, combined with a progressive and enterprising cosmopolitan citizenship, are sure to make a big city.

There are many natural attractions in close proximity to the city, some of which are Alachua Sink, Paine's Prairie, the Devil's Mill Hopper, Warren's Cave, and Lake Newnan, all of which are reached by private conveyance

Spring Park Stock Farm, the largest and finest live stock farm in the State, is only eight miles west of the city and is reached by a good hard road, affording a most pleasant drive.

The farmers of Alachua county, of which Gainesville is the county seat, "live at home and board at the same place." The temperature is very uniform, scarcely ever reaching the nineties in summer or the twenties in winter. The population of Gainesville is about eight thousand, representing nearly every nationality on the face of the earth, and strangers always meet with a hearty welcome.

The University of Florida for young men and the National Agricultural Experiment Station are located within the corporate limits of the city. In fact, Gainesville has so many things that we must be pardoned if we omit a few of them in the following enumeration of what

The Value of Good Digestion

Is easy to figure if you know what your stomach is worth. Kodol keeps the stomach at par value, by insuring good digestion. Kodol cures Dyspepsia.

Kodol insures good digestion by absolutely duplicating Nature's normal process, in perfectly digesting all food taken into the stomach.

While Kodol is doing this, the stomach is resting—and becoming strong and healthy. A strong and healthy stomach guarantees a sound and active brain.

The man with a sound stomach—a stomach that is doing for the body just what Nature intended it to do—is the man who is always prepared for any emergency. He is "there with the goods."

The man with a sick stomach, is a man sick all over. When the stomach is irritated by undigested food, the blood and heart are directly affected. Then dullness, unnatural sleepiness, sick-headaches, vertigo and fainting spells, and even serious brain trouble develop. Kodol will prevent these.

Spurring the stomach and brain to special effort by "tonics" and "stimulants" doesn't cure anything, or accomplish any good. Neither does dieting. Indigestion and the serious ailments which it induces can be averted and corrected only by natural means.

Kodol supplies this natural means. It performs the stomach's work for it—just as the stomach should perform it—while the stomach takes a little rest, "for the stomach's sake."

Our Guarantee

Go to your druggist today and get a dollar bottle. Then after you have used the entire contents of the bottle if you can honestly say, that it has not done you any good, return the bottle to the druggist and he will refund your money without question or delay. We will then pay the druggist for the bottle. Don't hesitate, all druggists know that our guarantee is good. This offer applies to the large bottle only and to but one in a family. The large bottle contains 2½ times as much as the fifty cent bottle.

Kodol is prepared at the laboratories of E. C. DeWitt & Co., Chicago.
